

# Fabric & Power BI Security Assessment

## Our Approach

Our Fabric Security Assessment reviews your tenant configuration, sharing practices, and data protection controls. We benchmark against Microsoft best practices and deliver a prioritized roadmap that secures your data estate without slowing your analytics teams.

## Common Challenges

- Sprawl of workspaces and orphaned content
- Adoption has outpaced governance
- Sensitive data shared without sensitivity labels or DLP
- No visibility into access, sharing, or audit activity
- Tenant settings left at risky defaults

## Benefits

- ✓ Reduce risk of data leakage and unauthorized sharing
- ✓ Align tenant configuration to security best practices
- ✓ Establish clear ownership across workspaces
- ✓ Improve visibility through audit logging and monitoring
- ✓ Enable safe self-service for business users
- ✓ Expand Fabric and Copilot adoption with confidence
