

Application and Database Modernization

Empower agility and unlock innovation with a modernized application and data platform.

Our Approach

- Assess legacy applications and databases for modernization readiness
- Align modernization strategies to cloud-native best practices
- Re-architect, re-platform, or refactor as needed
- Migrate to scalable, managed cloud services
- Optimize performance, security, and cost

Common Challenge

- Technical debt from aging legacy systems and databases slows down innovation, increases operational risk, and raises total cost of ownership (TCO)

Benefits

- ✓ Accelerate innovation and time-to-market
- ✓ Increase application and data scalability and reliability
- ✓ Improve security posture and compliance alignment
- ✓ Reduce infrastructure and operational costs
- ✓ Enable DevOps and CI/CD integration for faster deployments
- ✓ Align technology platforms with business growth and digital initiatives

What's Included

- Application & database assessment workshops
- Modernization strategy roadmap
- Cloud architecture & migration planning
- Implementation of modernization pilots or proofs of concept
- Migration to cloud-native services (e.g., Kubernetes, serverless, managed databases)
- Performance tuning, security hardening, & cost optimization
- Executive readout & modernization plan delivery

Service Options

- **Rapid Readiness Assessment:** Quick evaluation of applications and databases for modernization potential with prioritized recommendations
- **Full Modernization Project:** Comprehensive engagement to re-architect, re-platform, migrate, and optimize targeted workloads
- **Post-Modernization Support:** Optional managed services and continuous optimization support after modernization to ensure operational excellence

Why ivision?

People

We promote productivity and collaboration through proactive management, clear expectations, and technical expertise.

Process

Our structured and repeatable approach is based on strategic methodology that allows you to capitalize on opportunity.

Technology

Our proven partner ecosystem empowers us to deliver the most innovative solutions for your technology needs.
