

Azure Virtual Desktop Rapid Deploy

Gain the benefits of elastic cloud endpoints.

Our Approach

- Assess and Design
- Refine Requirements and Use Cases
- Align the Technologies
- Deploy, Secure and Test
- Train, Support and Adopt
- Optimize and Operationalize

Common Challenges

- Large remote workforce / contractors and need for elastic managed workstations facilitating ideal onboarding experiences and operational capabilities
- Centralized device management, application deployment, upgrades and operational support
- Application capability
- Providing secure access for full-time employees, contractors and independent software vendors
- Scalable virtual desktop performance

Benefits

- ✓ Accessible anywhere at any time around the globe
- ✓ Multi-Session pooled resource scalability within your Azure Tenant
- ✓ Multimedia user experience – supported with Microsoft Teams Meetings & Video
- ✓ Secure content in the cloud by keeping data in your tenant instead of on a device endpoint
- ✓ Cost savings by leveraging older hardware to access new Windows 10/11 AVD workstations
- ✓ Included with your M365 Licenses
