- Improved Marketing Campaigns
- Cloud & Mobile Access
- Streamlined Project Management
- Service Delivery Schedule Optimization
- Consolidation/Migration of Legacy Systems

Our Approach

- Collaborate & analysis with stakeholders
- Assess impact & level of effort
- Capture comprehensive requirements
- Architect detailed design
- Delegate & break into sprints
- Develop, develop, develop!
- Test & confirm functionality
- Deploy & launch to end users
- Monitor adoption & feedback

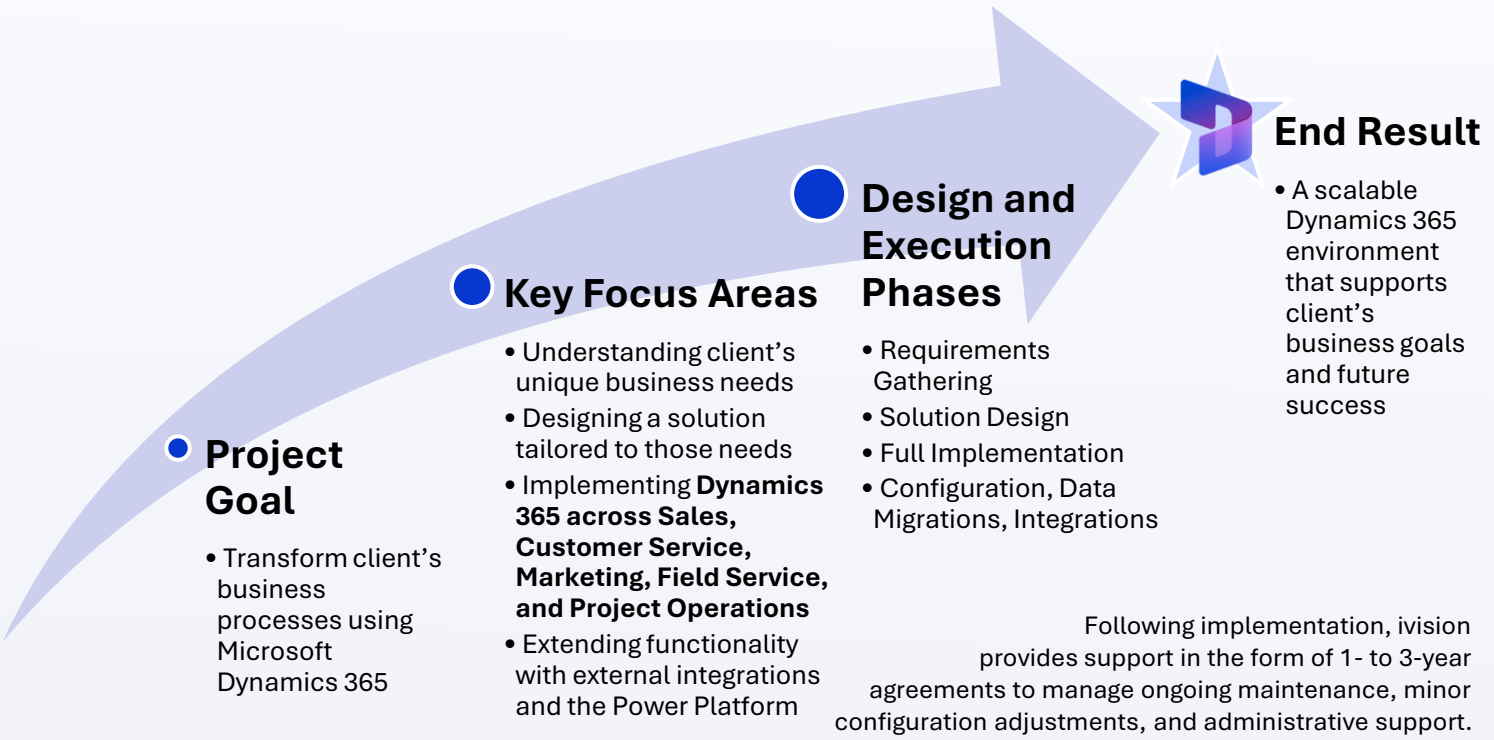

Benefits

- ✓ ivision ensures all stakeholders clearly understand the project's goals and priorities, fostering better decision-making, clearer expectations, and stronger buy-in from all parties involved.
- ✓ A robust, scalable, and flexible design from ivision establishes a strong foundation for future growth and customization, minimizing rework and enhancing system performance and user experience.
- ✓ Through continuous monitoring post-launch, ivision proactively resolves issues, ensures high adoption rates and user satisfaction, and acts on feedback to drive iterative improvements and ongoing value.

What is a CRM implementation?

ivision enhances your business operations with a customized solution, seamless integrations, and scalability.

ivision’s Agile Framework Implementation Process

ivision **Momentum Delivery Framework (“Momentum”)** is the methodology used to deliver ivision projects. Based on PMI (Project Management Institute) influenced philosophies, Momentum provides a solid and predictable delivery methodology. This service-based approach focuses the ivision consultants on the delivery of a service and all the related business outcomes.
