

Incident Response Tabletop

Exercise and validate the readiness of your Incident Response Plan.

Our Approach

- A facilitated simulation of cybersecurity incidents to test organizational response capabilities
- Aims to validate incident response processes, identify gaps, and improve team coordination
- Designed to test both technical and business organizational response capabilities

Common Challenge

- IR plans can become stale and outdated unless regularly exercised
- Untested IR plans are likely to not be leveraged in an emergency incident
- IR Plans need to be leveraged by both technical teams and business operations team

Benefits

- ✓ Validates effectiveness of existing incident response plans and procedures
- ✓ Identifies gaps in detection, response, and communication processes
- ✓ Improves team coordination and decision-making under pressure

What's Included

- Review of existing incident response documentation and procedures
- Development of custom incident scenarios based on organization's risk profile
- Facilitation of interactive tabletop exercise sessions
- Assessment of technical and organizational response capabilities

Service Options

- Exercise can be conducted virtually or in person
- Exercises can be customized to focus on specific types of incidents or regulatory requirements
- Multiple scenarios can be developed and executed based on the organization's needs
