# Azure Health Check

Make the most of your cloud investment.

Our Approach

- Assess and Analyze
- Align to Well-Architected Best Practice
- Evaluate Areas for Improvement
- Optimize for Security
- Optimize for Spend
- Optimize Operations and Performance

Transform

Architect

Operate

Common Challenge

- Inefficiencies and exposure from a flawed implementation of Cloud Adoption Framework

Benefits

- ✓ Health Checks only provide the findings, recommendations and remediation tasks
- ✓ Cost Optimizations
- ✓ Governance / Compliance / Regulation
- ✓ Identity and access management (IAM), role-based access control (RBAC), etc.
- ✓ Performance Optimizations
- ✓ Logging / Monitoring / Alerting
- ✓ Business Continuity / Disaster Recovery improvements

What's Included

- Virtual workshops to develop understanding of customer's environment and their priorities for Azure Health and optimization
- Virtual workshops to evaluate future state of Azure estate
- Automation and tooling for Azure discovery
- Raw data output of discovery results
- Executive readout and presentation of results

Service Options

- **Customized Focus:** A focused approach to the Azure Health that dives into areas such as FinOps, Security, operations and specific applications and workloads
- **Post-Assessment Remediation Support:** Additional time and expertise from our consultants to help drive priorities and remediation efforts for items discovered in the Health Check

Why ivision?

People

We promote productivity and collaboration through proactive management, clear expectations and technical expertise.

Process

Our structured and repeatable approach is based on strategic methodology that allows you to capitalize on opportunity.

Technology

Our proven partner ecosystem empowers us to deliver the most innovative solutions for your technology needs.
