

Unlock Unrivaled Cloud Security

Make the most of your cloud experience while minimizing risk, ensuring compliance and protecting your data.

Our Approach

We provide support from start to finish, helping you plan, implement and optimize to deliver security solutions that best fits your evolving business needs.

Common Challenges

- Traditional cybersecurity approaches don't align with cloud services (i.e., Network Perimeter vs. Identity Perimeter)
- Lack of cloud security frameworks leads to security posture gaps and risk exposure resulting in breaches and security incidents
- Compliance standards and regulation complexity in shared responsibility models
- Cloud security expertise and employee retention

What's Included

- ✓ Multi-Cloud security strategy and governance
- ✓ Multi-Cloud security architecture and design
- ✓ Cloud security framework and security model adoption
- ✓ Cloud services security assessments and hardening
- ✓ Regulatory and industry-based compliance assessment and remediation for cloud services
- ✓ Cloud security tools deployment and integration

Service Options

- Cloud security strategy and design engagements
- Security assessment of cloud services
- Project based consulting and implementation services
- Managed security services and operational support
- CSP licensing and cost management

Why iVision?

People

We promote productivity and collaboration through proactive management, clear expectations and technical expertise.

Process

Our structured and repeatable approach is based on strategic methodology that allows you to capitalize on opportunity.

Technology

Our proven partner ecosystem empowers us to deliver the most innovative solutions for your technology needs.
