

Carrier & OEM Device Security

Enable frictionless product launches and ongoing protection of customer data.

Our Approach

We provide support from start to finish, helping you plan, implement and optimize to deliver security solutions that best fits your evolving business needs.

Common Challenges

- OEMs: Frictionless product launch through Carrier channels
- Carriers: Unknown risk from OEM network devices
- Carriers: Expansive attack surface (network and applications)
- Both: Safeguarding customer information, keeping customers' trust

What's Included

- ✓ Assess OEM device(s) against carrier standards
- ✓ Assess OEM application and cloud environments
- ✓ Assess Carrier network and applications

Service Options

- Device assessment against multiple standards
- Single device assessment or device family assessment
- Single application assessment or retained assessment model

Why ivision?

People

We promote productivity and collaboration through proactive management, clear expectations and technical expertise.

Process

Our structured and repeatable approach is based on strategic methodology that allows you to capitalize on opportunity.

Technology

Our proven partner ecosystem empowers us to deliver the most innovative solutions for your technology needs.
