

# Enterprise Penetration Testing & Red Teaming

**Proactively find flaws before they can be exposed or exploited.**

## Our Approach

We provide support from start to finish, helping you plan, implement and optimize to deliver security solutions that best fits your evolving business needs.

## Common Challenges

- Penetration testing slows down IT projects
- High-impact vulnerabilities missed by automated tooling
- Communicating cyber risk to the board
- Balancing compliance, security and business growth
- Communicating ROI on penetration testing
- Fixing issues reported during pen testing
- Last-minute penetration testing windows

## What's Included

- ✓ World-class penetration testers find issues that tools and vulnerability scanners do not
- ✓ Our engineering-backed testers work with you to understand critical assets and key risks to guide penetration testing and ensure highest value in the shortest amount of time
- ✓ Help your security team build credibility and collaborate with business teams to reduce risk inside the organization
- ✓ Our continuous penetration testing solution fills the gaps in between full-scale penetration tests

## Service Options

---

- Adversary simulation
- Zero-knowledge (“black-box”) methodologies
- Full-transparency (“white-box”) methodologies
- Tailored to your timeline and budget
- Flexible engagement models

## Why ivision?

---

### People

We promote productivity and collaboration through proactive management, clear expectations and technical expertise.

### Process

Our structured and repeatable approach is based on strategic methodology that allows you to capitalize on opportunity.

### Technology

Our proven partner ecosystem empowers us to deliver the most innovative solutions for your technology needs.
