

Industry-Led Governance, Risk & Compliance

Employ industry best practices and regulatory requirements to stay ahead of emerging threats.

Our Approach

We provide support from start to finish, helping you plan, implement and optimize to deliver security solutions that best fits your evolving business needs.

Common Challenges

- Misalignment of cybersecurity governance with organizational goals, cybersecurity threat landscape and regulatory requirements
- Lack of integrated enterprise risk management programs for addressing cybersecurity risks
- Growing industry and regulatory cybersecurity requirements creates a series of compliance challenges
- No standardized approach to security architecture and controls deployment across various technology types

Service Options

- Cybersecurity governance program development and operationalization
- Organizational and targeted cybersecurity risk assessment and security roadmaps
- Regulatory, industry and customer cybersecurity requirements compliance programs

What's Included

- Establishment of governance programs (Policy, Standard, Operational Processes) in alignment with cybersecurity frameworks and organizational security charters
- Risk assessment and management designed to identify and prioritize potential threats in the organization
- Compliance assessment and remediation across regulatory and industry compliance requirements such as International Organization for Standardization (ISO), Cybersecurity Maturity Model Certification (CMMC), Payment Card Industry (PCI), Data Privacy Laws, customer security requirements
