

24/7 Managed Detection & Response

Gain real-time threat detection and effective incident response capabilities.

Our Approach

We provide support from start to finish, helping you plan, implement and optimize to deliver security solutions that best fits your evolving business needs.

Common Challenges

- In-house expertise required to monitor and respond to security incidents 24/7
- Increasing volume and complexity of threats makes it challenging for organizations to keep pace with emerging threats
- Manual monitoring and response process can result in delays, giving threat actors more time to exploit vulnerabilities
- Compliance and regulatory requirements require adherence to industry-specific regulations and standards

What's Included

- ✓ Threat detection using advanced threat intelligence, AI and behavioral analytics to detect potential threats
- ✓ 24/7 Monitoring of network traffic, end points and security logs for indicators of compromise and suspicious activities
- ✓ Incident escalation and resolution based on managed assets
- ✓ Client services portal which includes incident reporting, dashboards and organizational security health

Service Options

- 24/7 threat monitoring, incident detection, escalation and triage
- Fully managed security services portfolio including managed SIEM, vulnerability scanner, file integrity monitor, end point protection
- Vulnerability management, managed patching, attack service management and continuous penetration testing

Why iVision?

People

We promote productivity and collaboration through proactive management, clear expectations and technical expertise.

Process

Our structured and repeatable approach is based on strategic methodology that allows you to capitalize on opportunity.

Technology

Our proven partner ecosystem empowers us to deliver the most innovative solutions for your technology needs.
