

Data Center Fabric

Accelerate and protect your workloads with secure connectivity that's easy to scale.

Our Approach

The Data Center Fabric solution provides a comprehensive approach to designing, deploying and optimizing data center network connectivity tailored to your application and user requirements. This ensures a robust, secure and scalable fabric architecture.

Common Challenges

- Application performance
- Network complexity
- Latency and performance
- Security concerns
- Lack of stability or scalability
- Remote access and mobility
- Lack of centralized management
- Expensive maintenance renewals
- End-of-life equipment
- Inability to find or retain experienced personnel

Benefits

- ✓ Expert architects on staff
- ✓ Customized solution based on business requirements
- ✓ Enhanced performance
- ✓ Better security
- ✓ Improved scalability
- ✓ Flexible architecture
- ✓ Meets compliance requirements
- ✓ Data center automation
- ✓ Application and network visibility

What's Included

- Architecture recommendations aligning to industry best practices
- A modern fabric design with a focus on security, performance and scalability
- Comparison of vendor features and available options
- Migration assistance and documentation
- Troubleshooting and remediation of existing network
- Documentation and knowledge transfer
- “White-glove” project management

Service Options

- Fully supported by ivision managed services
- Best Practices Assessment of existing network
- Network roadmap and architectural recommendations
- Network tooling, monitoring and alerting
- Network Orchestration and Automation
- Cloud Integration and Load Balancing
- Micro / Macro Segmentation (GRC, Compliance)

Why ivision?

People

We promote productivity and collaboration through proactive management, clear expectations and technical expertise.

Process

Our structured and repeatable approach is based on strategic methodology that allows you to capitalize on opportunity.

Technology

Our proven partner ecosystem empowers us to deliver the most innovative solutions for your technology needs.
