

Microsoft Copilot Data Governance Readiness with Microsoft Purview

This ivision offering evaluates and captures Microsoft 365 Copilot requirements & controls for leveraging AI responsibly with an operational data governance strategy built-for-scale.

Our Approach

- Prepare for Microsoft Copilot responsibly
- Assess & capture business goals for data governance
- Align with Microsoft Purview & Microsoft 365 Security capabilities
- Collaborate on governance strategy
- Configure quick-win prioritized & tactical protection policies
- Safeguard most sensitive data across Microsoft 365 & beyond

Common Challenges

- No Data Governance Security framework
- High risk of Insider data leakage
- Lack of cohesive data retention strategy
- Prompting AI will leverage comingled and unprotected content within your M365 Tenant without necessary guardrails and policies to protect it
- Absence of a cohesive and comprehensive data governance strategy

Benefits

- ✓ Microsoft Cloud-integrated security tools & policies
- ✓ Maximize your ROI with Microsoft investment
- ✓ Prepared for the benefits of Responsible AI
- ✓ Enhanced productivity & collaboration with modern security toolsets & data classification techniques
- ✓ Cost-effective solutions for data governance across workplace platforms

What's Included

- Gain visibility on location of most sensitive data & strategies to safeguard against data security risks & oversharing
